

You can now own your very own cask of Glenglassaugh spirit, for only £500.

Your spirit will be filled into a 50 litre cask, known as an Octave, at a strength of 63.5% ABV. These casks have been handcrafted using specially selected staves from larger casks previously used to mature Scotch Whisky.

Your cask will be stowed in Number 1 Warehouse at Glenglassaugh Distillery. Our traditional dunnage warehouse dates back to 1875 when Glenglassaugh was first founded. Warehousing for up to 7 and a minimum of 3 years is included in the price.

Your cask will be selected, and filled by hand in our filling store.

You can, if you wish, come to Glenglassaugh and fill your cask yourself!

To make sure that you know how your spirit is maturing, we will help you keep a close eye on it by sending you a cask sample once a year. You are also free to come and visit your cask, and all we ask is that you give us a call to let us know you are coming.

Your choice of inscription will be added to the head of the cask and you will receive a certificate of ownership, bearing a photograph of your cask.

We also have our own bottling facilities where we currently bottle all our spirits and whiskies by hand. If you choose to bottle your cask with us, you can even come and do it yourself.
